Experience

Language Instructor

April 2024 – Present

- Disha Computer Institute, Dattawadi | Nagpur, India
- Delivered comprehensive lessons on 5+ programming languages including C, C++, Java, HTML, CSS, and JavaScript to 20+ students.
- Created engaging learning materials such as lecture slides, coding examples, and assignments to facilitate hands-on learning, enhancing student understanding.
- Identified learning gaps in students' coding skills and introduced tailored coding exercises, resulting in a 20% increase in assessment scores.

Projects

(Nov 2024) [\[Link\]](#)

Text Analyzer

Tech Stack: HTML5, Bootstrap, JavaScript, React

- Built a web application for text analysis and manipulation using React.js, enhancing text-processing efficiency for 50+ users.
- Implemented 7+ text manipulation features such as word/character counting, case conversion, and whitespace removal, improving user productivity by 30%.
- Enhanced user experience with real-time text preview functionality and a bookmarking system for saving and revisiting text.

Expense Tracker

(Aug 2024) [\[Link\]](#)

Tech Stack: React, HTML, CSS, JavaScript, Chart.js

- Engineered a web application for managing daily expenses, enabling users to add, track, and categorize expenses with ease, reducing manual tracking errors by 40%.
- Integrated Chart.js to visualize spending patterns through interactive charts for better financial analysis.
- Diagnosed and resolved key logic issues in the expense tracker app, reducing calculation errors by 40% and improving user satisfaction.

BK Enterprises - Service Platform

(Jan 2024) [\[Link\]](#)

Tech Stack: React, HTML, CSS, JavaScript, React

- Designed and implemented a professional business website featuring essential pages like Home, About, Services, and Contact to ensure seamless navigation.
- Planned and executed project milestones to deliver a fully functional business website within a 1-month deadline, ensuring seamless functionality and user experience.

Certificates

Hackathon Participation - Rackathon 2025

(March 2025)

G H Rasoni University, Amravati

- Participated in Rackathon 2025, organized by G H Rasoni University.
- Collaborated with a team to develop an innovative solution within a limited timeframe.
- Applied technical skills to solve real-world challenges, enhancing problem-solving and coding abilities.
- Improved teamwork, time management, and project execution skills through hands-on experience.

Technical Skills

- **Frontend:** React.js, HTML5, CSS3, JavaScript
- **Backend:** Node.js, MongoDB
- **Tools & Platforms:** Git, Postman, Docker, Nginx

Education

G.H. Rasoni College of Engineering (GHRCE)

(2022 - 2026)

Bachelor of Technology (B.Tech) in Information Technology

CGPA: 8.9
